MP 1500

Aficio™

COPYING MADE EASY,
UP TO A3

Affordable and simple copying for any small workgroup environment

The Gestetner MP 1500 copier offers a quick and simple solution for all small offices or workgroups with daily copy demands.

An easy to follow control panel, together with a fast first copy time, enables you to quickly produce quality copies up to A3 at the touch of a button. With the built in zoom feature you can instantly reduce or enlarge copies to add visual impact or highlight important text. For effortless copying of multi-page originals an Automatic Document Feeder (ADF) is also available. Environmentally friendly and surprisingly compact, the Gestetner MP 1500 makes copying easy and affordable.

You can be confident because it is supplied and maintained by the specialists in document communications and supported by the guarantee of a first class service and supply back up.

Gestetner's unique approach links people with knowledge and expertise, combining our wide experience of innovative, document related Products and Software Solutions with our world class Business and Professional Services to deliver the best Total Document Solutions for your business.

Quick and easy access through a series of
one touch commands

Zoom feature reduces or enlarges originals
between A4 and A3

Special features ensure the MP 1500 is
an environmentally friendly machine

Simple to use

The control panel of the MP 1500 is simplicity in itself. All of the copier's functions are easily and quickly accessed through a series of one-touch commands that even a first time user can follow with complete confidence. All-round copy productivity and versatility are right there at your fingertips.

Versatile paper handling

Unlike many other copiers of its size the MP 1500 can handle paper sizes from A6 right up to A3. You can also copy onto a variety of other materials, from cards and labels through to transparencies. Photographs and other media, such as business reports and journals, can also be copied with ease. This, combined with a total paper capacity of 350 sheets means all jobs are handled without interruption.

Zoom feature for added impact

The standard zoom feature enables you to reduce a complete original, or just a section, down to 50% or enlarge it to 200% in 1% increments. This can be used to create an immediate photographic impact or highlight important text points. Reducing sizes such as A3 to A4 or enlarging A4 to A3 can also be done with the simple touch of a button.

Speed and quality

The MP 1500 has a first copy time of 6.5 seconds and a running speed of 15 copies per minute. Combine this with high quality 600dpi resolution output and all your daily copying needs are answered. Time can be optimized with the digital benefit of 'scan once, copy many' technology. This protects your original document and ensures top quality copies time and time again.

Space saving design

For a machine capable of handling a copy size of A3, the MP 1500 is a remarkably compact copier. This space saving design means it will fit comfortably and conveniently into any office or work area where space is at a premium.

Automatic Document Feeder (Optional)

For faster, no-nonsense copying the MP 1500 can be fitted with an optional 30 page ADF. This feature speeds up the process, enabling you to copy multi-page documents simply and smoothly, reducing time spent at the copier.

Environmentally friendly

The MP 1500 is compliant with EU environmental legislation. This means no lead, chromium, PVC or cadmium in the manufacturing process of these devices. Compared to conventional toners, less energy is used in the production process of the MP 1500 new toner, reducing carbon dioxide emissions by approximately 30%.

Aficio™

The Gestetner MP 1500 bears the Aficio Symbol – your sign of digital technology, innovation and customer support in action.
